home and world peace - the future for all nations**

**General solution:**

The key to freeing of Germany and Europe from conformance to the fascist dictatorship is contained within the Basic Law.

German citizens are obligated, in particular in accordance with the Basic Law FOR the German Federal Republic, Article 139 of the Basic Law, to legally enforce the pressing and necessary issue of denazification. Ongoing war criminality and genocide by fascists, that persist to this day, must be punished, the Nuremberg II tribunal.

Conclusion of the peace treaties signed by the over 54 nations, which were involved in World War II, the Yalta II. Implementation of the German constitutional agreement in article 146 of the Basic Law, which will supersede the Weimar state constitution of 1919 that otherwise is still in effect.

**The greatest deception of all times**

**Why have the following obvious issues not been laid to rest even at this late date?**

1. Germany has no sovereignty. It is still under foreign occupation.
2. The Third Reich of Adolf Hitler continues to exist illegally and deceitfully under constitutional law.
3. The Second World war has never ended. ( Only a cessation of hostilities.)
4. The necessary conclusion of the peace agreements involving more than 54 nations continues to be blocked.
5. Germany is the financial driver of, and the leading weapons exporter for, wars throughout the world.
6. Current preparations for war threaten all world populations with annihilation.
7. Germany has been fully privatized and voided as public state (viz. [www.upik.de](http://www.upik.de)).
8. The fragment of a German federal state was finally dissolved in 1990.
9. Through a treasonous, secret „coup d'etat“, including forgery of documents in the German citizenship law (StAG of February 5, 1934), the politically-designed „German People“ were rendered stateless, fully deprived of any political power or rights.
10. The European Union project is Walter Hallstein's plan for a Fourth Reich
